

Exterior Style Guide

For 40 years Renaissance Homes has designed and built homes featuring a wide variety of exterior styles. Although many of the plans presented on our website are currently displayed with a single exterior style, we can modify to a different style suited to your preference. We can generally adapt any of our exterior style to the floor plan that you select or collaborate with our design team with. Let us assist you in selecting or customizing a home plan that meets both your lifestyle needs and reflects your personal style preferences!

Some of the architectural styles we are currently designing and building include:

FARMHOUSE TRADITIONAL

FARMHOUSE MODERN
